Xavo renews ISO 9001:2015 certification

Xavo, a leading provider of Software-as-a-Service for Biopharma R&D with offices in Boston, MA, Bayreuth, Germany and Basel, Switzerland, announced today that it has successfully renewed the ISO 9001:2015 certification for all Xavo legal entities under the Certification Registration number 01 100 071922.

The renewal of Xavo's ISO 9001:2015 certification was the result of a successful audit, conducted over the course of three days in November 2021 by TÜV Rheinland, the responsible certification authority. The audit resulted in no major findings.

"A high level of structure, process and quality in our business operations is very important to us as it ensures the best possible outcomes for our customers and shareholders. In addition, our ISO-certified framework provides a clear frame of reference for our employees in their daily work", says Detlef Riedel, Executive Vice President responsible for Finance, Administration and HR at Xavo. He continues: *"The successful renewal of our ISO 9001:2015 certification is a clear sign that we did our homework and that we continue to be a reliable partner for our customers when it comes to delivering important business outcomes to promise, on-time, every time."*

The renewal of Xavo's ISO 9001:2015 certification comes at an important point in time as the company is in the final phases of preparing a new release of its Sample Management Software-as-a-Service, which will be called 'Xavo R3'.

About Xavo R3
Xavo R3 is a full-featured Sample Management platform for Biopharma R&D labs that is exclusively offered as Software-as-a-Service. The subscription model scales according to market needs from small Biopharma customers to large enterprise deployments. Xavo R3 dramatically improves the ability of Sample Management labs to fulfill demand for R&D materials at the highest quality, to promise on time every time. Furthermore, it helps Sample Management labs achieve higher productivity, flexibility and transparency while reducing compound use, labor cost and increasing quality.

About Xavo
Xavo is a software company that was founded in 2016 with the sole focus on delivering exceptional value to Biopharma R&D through Software-as-a-Service. Xavo has offices in the U.S., Germany, and Switzerland.
